

Upper East Coast Water Supply Plan 2006 Amendment

***Linda Hoppes, Plan Manager
Upper East Coast Water Supply Plan
Water Supply Department***

***Water Resource Advisory Commission
July 6, 2006***

sfwmd.gov

UEC Planning Region

Study Area Contains:

- ~ 1,230 square miles
- 2000 population - 320,664
- 2025 population – 584,927

Includes:

- Martin and St. Lucie Counties
- Easterly portion of Okeechobee County

Why Amend 2004 Plan?

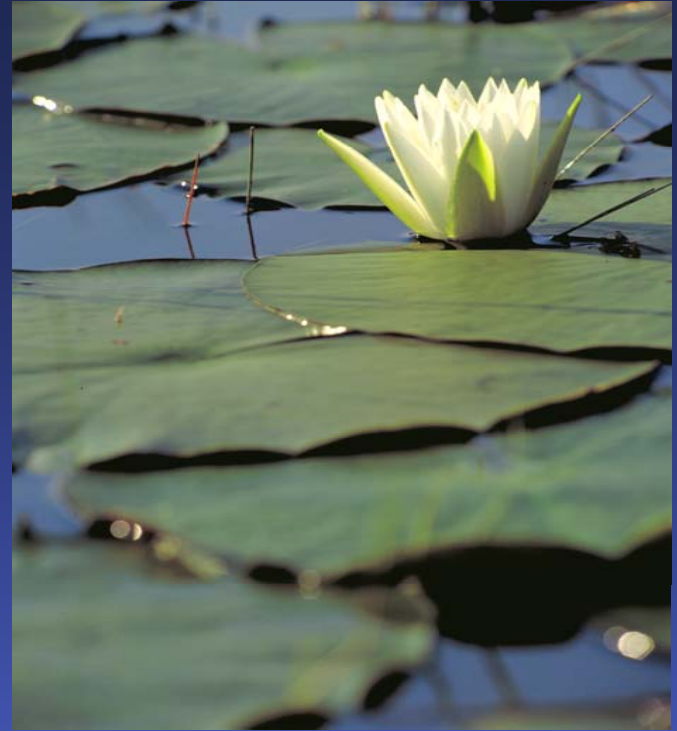

- New state law requirements
- Information for local governments for compliance with new legislation
- Alternative water supply projects become eligible for District's funding
- Population projected for 2025 is 20% higher than it was in 2004 Plan (99,417 more people)

Water Supply Development Projects

- Added specific water supply projects
- Projects Included in Amendment
 - 1 Traditional
 - 47 AWS (128.9 MGD potable)
 - 14 Brackish and 33 Reclaimed
- Eight AWS projects approved for funding in 2006

Public Water Supply Project Status

- All UEC public water supply utilities have adequate supply to meet 2025 projected demand!

Responses to Public Comment

- Revised population distributions
- Adding text for future amendment process
- Clarified availability of traditional supplies

Responses to DEP Comments

- Identifying water sources for other self-supplied sectors such as thermoelectric
- Included AWS project classifications
- Added reclaimed totals
- Showed regional sufficient capacity to exceed public water supply needs
